- Paper recycling
- Packaging
- Equipment for packing production
- Paper and cardboard recycling production and processing equipment
- Cleaning of gas and dust emissions
- Sewage treatment
- Water treatment
- Energy saving technologies
- Measuring and control instruments, automatic control and monitoring systems
- Laboratory Equipment
- Accessory equipment
- Alarm and fire safety systems
- Personal Protective Equipment & Workwear
- Consulting, marketing and engineering services

**PULP, PAPER & TISSUE RUSSIA** is a unique opportunity for the introduction of modern environmental standards and technologies, increasing sales and forming an audience of loyal customers, creation of pan-regional and pan-sectoral links, direct communication with industry leaders.

### **INVITED TARGET GROUPS:**

- top managers & experts of forest sector enterprises
- representatives of federal and regional state authorities from Russia and abroad
- representatives of associations and unions

### **POTENTIAL OPPORTUNITIES FOR PULP AND PAPER INDUSTRY IN RUSSIA:**

1. Russia has considerable forest resources potential (about 25% of world reserves)
2. Opportunities to create new productions – the Russian government is currently reviewing a number of priority investment projects in forestry, within which a mill with capacity up to 1 million tons of production per year is planned to be built
3. State strategy is focused on creation of modern production of deep processing. The total amount of investment projects is 10 billion euros
4. There is a legal basis for economic activity – Forest Code establishes the right to take the forest land leased for 49 years with prolongation

**Well developed regional network of exhibition congress events on forestry and wood-related topics (St.Petersburg, Khabarovsk, Krasnoyarsk and Petrozavodsk) provide with wide range promotions possibilities.**

Moscow International Forestry Congress and BIOENERGY RUSSIA (International Exhibition&Conference on technologies and equipment for biofuel production and burning) will be concurrently held and ensure additional promotion possibilities.

Moscow International Forestry Congress is the leading forest industry event in Russia and provides the platform for business dialogue between forest sector experts, politics representatives, business society representatives, scientists and manager from worldwide. Industry decision makers will have a great opportunity to discuss current forest sector issues and find solutions.
